## PROFILE

A curious and adaptable Software developer with experience in Data Science, AI/ML, Automation software, and Web Development. Proficient in Python and its libraries/frameworks. Skilled at building efficient, scalable software and committed to continuous learning and applying innovative technologies to create impactful software solutions.

## SKILLS

- Python Development (OOP, scripting)
- Version Control (Git/GitHub)
- Database Management (SQLite, MySQL)
- API Integration and Utilization
- Data Cleaning / Wrangling / Visualization
- HTML, CSS, JavaScript

## EXPERTISE

- Automation (Selenium, BeautifulSoup)
- Data Science / Analytics (Pandas, NumPy, Scikit-learn, Matplotlib)
- Web Development (Flask, Django)

## EDUCATION & CERTIFICATIONS

### Google Data Analytics Professional Certificate

Google | Coursera | Issued Aug 2024  
Credential ID: T2UI8QFOSZ4I

### Bachelors in Business Administration, Operations Management S.Y 2013 - 2017

Saint Columban College, Pagadian City

### Microsoft Office Specialist Certification

Microsoft | Issued Apr 2017  
Credential ID: A535E6-A9756D

## RELEVANT EXPERIENCE

### Python Software Developer

Freelance | Pagadian City & Remote | October 2024 – Present

Specialized in developing Python web and desktop automation and scripting software with Selenium, BeautifulSoup, etc. Delivered custom solutions to optimize workflows

and address business challenges.

- Streamlined manual tasks through automation, reducing workload and improving productivity by 30%, saving up to 2+ hours per day, and enhancing operational efficiency.

### Data Analytics Experience

Freelance | Pagadian City & Remote | July 2024 – Present

Executed comprehensive data analytics projects by extracting, cleaning, and analyzing large datasets. Utilized SQL for advanced querying and Python (Pandas) for exploratory data analysis, revealing actionable insights. Designed and developed dashboards to effectively communicate findings.

- Improved workflow efficiency by applying data-driven insights, significantly enhancing performance and outcomes compared to traditional methods.

### Social Media Manager (YouTube Channels)

Freelance | Pagadian City & Remote | Feb 2022 – Present

Managed and optimized multiple YouTube channels, driving content creation, team coordination, and growth strategies. Utilized data-driven techniques and software development to streamline workflows and maximize channel performance.

- Developed a Python-based bulk uploader software to automate the upload of hundreds of videos weekly, saving up to 10-15 hours per week of manual work.

## OTHER EXPERIENCE

### Product Manager

Boston | Davao City | Jun 2017 - Aug 2017

Led product management, marketing, sales, and inventory control. Analyzed customer demographics and target markets to drive sales strategies.

### Customer Service Representative

Alorica | Makati City | Dec 2017 - Sep 2018

Managed customer interactions, handled sensitive financial data, and resolved complex issues using de-escalation tactics.

### English Second Language Teacher

51Talk | Pagadian City & Remote | Apr 2019 - Feb 2022

Taught English to non-native speakers, customized lesson plans, and assessed student progress to ensure effective learning.
